THE SOUTH
CAROLINA GAZETTE.
[VOL. XXXII.] [NUMB. 1633.]

From *Monday* NOVEMBER 17, to *Monday* NOVEMBER 24, 1766.

CHARLES-TOWN, *November* 24, 1766.

The SPEECH of his Excellency the right honourable Lord CHARLES GREVILLE MONTAGU, *captain general, governor, and commander in chief in and over his majesty's province of* SOUTH CAROLINA: *Delivered to the general assembly of the said province, on Wednesday the 19th instant.*

Honourable gentlemen,

Mr. Speaker, and gentlemen of the commons house of assembly,

IT gives me the highest satisfaction to find this province in so flourishing and peaceful a situation, neither alarmed by foreign enemies, nor disturbed by internal broils.

His Majesty's great attention and regard to the interests of the American colonies, has at various times been manifested; but particularly so, by the repeal of the stamp-act; the indemnification of such persons, whose too hasty proceedings had rendered them obnoxious to the laws; and by a late act for repealing certain duties in the British colonies, and granting others that may be less prejudicial to them: These marks of affection, as they cannot fail of engaging your gratitude, so I hope they will the continuance of that harmony and unanimity amongst you, which alone can perpetuate the blessings to yourselves, and to me be productive of the sincerest pleasure.

Mr. Speaker, and gentlemen of the commons house of assembly,

I have only to recommend to you, by his majesty's instructions, the providing a sum of money for building a new goal; the expediency and necessity of which, I believe, most here are sensible of. I must also recommend to your consideration, the ruinous state of your fortifications, and particularly of Fort Johnson.

I have ordered the public accompts to be called in, and will take care they shall in due time be laid before you, when, I doubt not, you will provide what is requisite for defraying the expences of them.

Honourable gentlemen,

Mr. Speaker, and gentlemen of the commons house of assembly,

I have nothing more to recommend, but the making such wholesome laws and regulations, as shall be most conducive to the support of religion, the mainteinance of good order in this province, and the increase and improvement of your trade.

CHARLES GREVILLE MONTAGU.

Nov. 19th, 1766.

To which his excellency was pleased to return the following ANSWER,

Honourable Gentlemen,

I RETURN you my most sincere and hearty thanks for your address. The grateful sense you express for his majesty's attention to the interests of the American colonies, cannot fail of giving the greatest satisfaction. I shall always endeavour to merit your good opinion, by giving any assistance in my power, to promote the happiness and welfare of this province.

CHARLES G. MONTAGU.

To His Excellency the Right Honourable Lord CHARLES-GREVILLE MONTAGU, *Captain General, Governor and Commander in Chief, in and over His Majesty's province of* South-Carolina.

THE humble ADDRESS of the COMMONS HOUSE of ASSEMBLY of the said province.

May it please your Excellency,

THE various instances of attention and regard shewn by our most gracious sovereign to the interests of the American colonies, cannot fail to fix the most indelible impression upon the minds of his loyal and dutiful subjects, the commons house of assembly of this province; nor can the recent marks of his affection excite, in them, any other than the most grateful acknowledgements.

That paternal tenderness, which creates in us an unfeigned love for his sacred person, and veneration for his just authority, must forever produce in us an uninterrupted harmony and unanimity, as the surest means of perpetuating the blessings we enjoy in a reign no less distinguished for its benignity, than its glorious adherence to the true principles of the constitution, particularly manifested by the repeal of the stamp-act: Nor will any event, we hope, ever happen to tarnish the honour we incessantly aspire after, of being ever recorded for our zealous devotion to the King, and our firm attachment to the steady supporters of his government.

The satisfaction your excellency is pleased to express in our flourishing and peaceful situation, indicates your inclination to study our happiness, and promises us that your interest will be exerted to promote it.

We, in our sphere, will give the most serious and diligent application to the several matters recommended to us by your excellency; the result of which, will, we flatter ourselves, terminate in making such seasonable and wholesome laws, as may serve the cause of religion, maintain the good order of society, and tend to increase and improve our trade and manufactures.

By order of the House,
PETER MANIGAULT, *Speaker.*

In the Commons House of Assembly,
21st November, 1766.

The Governor's ANSWER.

Mr. Speaker, and gentlemen of the commons house of assembly,

I RETURN you my sincere thanks for your address; and the gratitude & acknowledgment you express to have, for his majesty's regard for the interest of the American colonies, gives me great pleasure.

You may be assured, G——, that I shall ever study to preserve and improve your opinion, of my inclination and desire to promote your happiness.

CHARLES G. MONTAGU.

AMERICAN INTELLIGENCE.

ANNAPOLIS, *in Maryland, Sept.* 22.

LAST Tuesday died, at his plantation in Queen Anne's county, Col. *Richard Tilghman*, the eldest brother of a very respectable family.

Some very remarkable causes, about 20, have been determined this week, at our Assize-Court.—The actions were brought by some seamen, against the master of a *Guiney* ship, for ill usage, and wages; and the Sailors got much the *weather gage* of their captain, and lay so far to *windward* of him, that they *run him down*, by recovering very considerable damages, their wages, and costs of suit, which amount to *many guineas*, the actions being first brought in the County Court, from thence removed to the Provincial, and from thence to the Assize. [*This was a* GUINEA VOYAGE *indeed.*]

KINGSTON, *(in Jamaica) September* 13.

The high wind, which happened on Friday and Saturday, the 13th and 14th of August, and did considerable damage to the shipping of this island, was not so terrible in its consequences as at Dominica and Martinico, as it did not happen here till two days after, in which time the wind had greatly abated of its fury.

PHILADELPHIA, SEPTEMBER 18.

Epitaph on the Reverend Mr. William M'Clenachan, *Late Minister of St. Paul's*, Philadelphia.

WHILST o'er this modest stone religion weeps,

Labours of love, and virtues of the heart:

No other guide, nor wish'd for other praise:
Who, friend to man, and foe to vice alone,
Liv'd for our bliss, and dy'd to crown his own.

November 6.

Extract of a letter from Cork, August 27, 1766.

"You will have seen, no doubt, before this reaches you, that the intercourse between America and Ireland is totally cut off, from the first of January next, by the 35th section of the American act of last session, by the word Ireland being omitted thro' mistake. A gentleman of this place, now in London, was the first who perceived it, and alarmed the people on this side of the water; he has presented petitions to the lord lieutenant, from all the principal trading towns in the kingdom and his excellency has given him the strongest assurances, that it will be repealed as soon as the parliament meets."

QUEBEC,

September 22. On Friday, the 12th inst. arrived at Montreal, on his way here, attended with several gentlemen of distinction, the honourable Guy Carleton, Esq; lieutenant governor of this province, and brigadier-general of his majesty's forces, &c.—He is hourly expected in town.

Sept. 29. Letters patent have passed the great seal, appointing the hon. William Hay, Esq; chief justice of this province, in the room of William Gregory, Esq; and Francis Maseres, Esq; his majesty's attorney-general, in the room of George Suckling, Esq.

On Tuesday last, about noon, arrived here the hon. Guy Carleton, Esq; lieutenant governor and commander in chief of this province, and brigadier-general of his majesty's forces.—He was met at Cape Rouge by his majesty's council the civil officers of government, the officers of the regiments quartered here, and many citizens, who escorted him to town. On his arrival within the gates, he was saluted by the cannon of the garrison.

PORTSMOUTH, *(New-Hampshire) Sept.* 29.

Saturday last the Scarboro' mast ship Capt. Tate, arrived here in 6 weeks and 4 days from Plymouth, in England.—It is remarkable, that this ship has performed three voyages from England to these parts in ten months.

BASSETERRE (in St. Christopher's) October 8.

Monday night last, about 10 o' clock, a great gust of wind, with a brisk gale of wind from the S. E. began, in which nine or ten vessels were drove ashore on the beach, and wrecked, some houses, fences, trees, &c. in town, are damaged. We have had no news yet from the country, and greatly fear the mischief done there is considerable, as the wind continues blowing hard.

Oct. 11. From Sandy Point we hear, that a sloop was drove ashore there, and lost; and that a schooner put to sea from thence, when the storm began, with only two hands on board, and has not since been heard of.

From different parts of the island we have accounts of great damage being done to the cane pieces, roads, &c. by the late bad weather.

A gentleman writes from St. Christopher's, *Oct.* 11, that a vessel was just arrived from St Eustatia, the first since the gale of wind, the captain informed of the loss of a number of vessels there (said to be 14 sail) and that he met three or four vessels at sea dismasted; from which it was imagined the gale had been general throughout the islands.

WILLIAMSBURG, *(in Virginia) October* 17.

About a fortnight ago, died in Fanquier county, John De La Somet, aged by all accounts, upwards of 130 years. He was banished from France for his religion in 1684, and was soon after, with many others of the same nation, imported into Virginia, to settle the Brenten lands. He was hearty to the last, and except that of his sight, which he lost about 8 or 10 years ago, retained every other sense. What is remarkable, tho' great great grand-father, great grand-father, grand-father, and father, to a numerous progeny, yet it is fact, that he was not only the first of his name, but also of any descending from him, that has died in this colony.

From RIND's Gazette.

An indictment for a LIBEL, was yesterday preferred to the grand jury of this colony against ROBERT BOLLING, of Buckingham, at the instance of the honourable WILLIAM BIRD, Esq; for being author of a piece published in this gazette, the 21th of July last, with regard to the bailment of the late Col. CHISWELL. And indictments for LIBELS were preferred against Messieurs PURDIE and DIXON, and the Printer of this PAPER, at the instance of JOHN WAYLES, Esq; for publishing a piece in their last GAZETTES, signed R. M. But the grand jury [illegible] returned the said three indictments, NOT A BILLS.

Last Wednesday [illegible] his house in this city, colonel John CHISWELL. It is highly probable his death was occasioned by anxiety of mind, as the physicians who attended him in his illness, have declared upon oath, that it was their opinion it proceeded from some such cause.

PROVIDENCE, *Rhode Island*, October 18.

Tobago, one of the ceded islands, in the West-Indies it is said, will soon be a very flourishing colony, many thousand acres of land having been purchased, by persons who are determined to make improvements thereon, with all expedition.

It is said, the merchants of the city of London, in one day, subscribed 5000 l. towards the relief of the unhappy sufferers, by the late dreadful fire, at Bridge-Town in Barbados.

November 1. Joseph Sherwood, Esq; our agent at the court of Great-Britain, in his last letter to the governor and company of this colony, acquaints them, that he had applied to the lords of the treasury for the payment of the money due to the colony, by grant of parliament, as a reimbursement for their services during the late war, but was told by their lordships, that as there had been dangerous riots in the colony, on account of the stamp-act, in which several persons had their property destroyed, they were determined to retain the money in their hands, till ample compensation should be made to the sufferers.——This letter has been laid before the general assembly, and the agent requesting instructions how to proceed, they appointed a committee to consider and point out what was expedient to be done, who have made a report, which was approved, to this purpose, that his honour the governor be requested to direct the agent, to represent to their lordships, that in consequence of a parliamentary grant some time since, the other colonies had received their several proportions; and with regard to riots, and the destruction of private property, that the legislature knew of none, no complaints of that kind having come before them; but when any real sufferers should in a constitutional manner, apply to the general assembly for redress, they would take the matter into consideration, and do therein what they conceived to be just and reasonable.

BRIDGE-TOWN, (in Barbados) *Oct.* 25.

On Tuesday the 21st instant, about a quarter before five o' clock in the morning, a shock of an earthquake was felt here, which continued the space of a minute; and notwithstanding it was very severe, its motion was so regular from north to south, that we do not hear of any damage sustained by it.

NEW-YORK, *October* 30.

The boundary line between the provinces of New-York and Quebec (the name now given to all Canada) is fixed at latitude 45 deg. which crosses lake Champlain, about two and a half miles north of Wind-Mill Point, and is distinguished by openings made on each side of the lake, where several trees are girdled, and square posts set up, mark'd with the letters Y and Q, relating to the respective governments. The openings on the west side of the lake, is at a low remarkable point of land, which was then, by the gentlemen present, named MOORE's POINT, in honour to his excellency Sir Henry Moore, our governor.—His excellency, and general Carleton, lieutenant-governor of Quebec, were each attended by several gentlemen from their respective governments.

While his excellency was at Wind-Mill-Point, several gentlemen from Quebec, took the opportunity to wait on him, and acquaint him with their claims, by grants from the French king, of all the lands in those parts, on both sides the lake, as far south as Crown-Point, or farther.——We are informed they very much insisted upon their right, from those grants, and that his excellency was pleased to acquaint them, that the determination would be left to the king and council.—Should the claims of these encroachers be admitted, it is hardly to be doubted but they may produce grants for all lands to the north of Fort-Edward.

November 3.

Thursday last the new Episcopal chappel, in this city, called ST. PAUL'S, and esteemed one of the most elegant edifices on the continent, was opened, and dedicated to Almighty God. The concourse of people, of all ranks and denominations, (who attended on this occasion) was very great.

With Capt. Lawrence are come passengers, Major James's Lady, and her Neice; Doctor Moffat, of Rhode-Island; and Mr. Walker, collector for Newcastle on Delaware.

November 6. Last Wednesday came on before the supreme court of judicature for this province, a cause in which Mr. Thomas White, of this city merchant, was plaintiff, and capt. John Brown, of his Majesty's ship Hawke, defendant, for the seizure of a ship and cargo in December 1763; when, after a hearing of seventeen hours, the jury brought a verdict for the plaintiff, with £. 4046 damages, and costs of suit.

Nov. 10. We have the pleasure to inform our readers, from good authority, that his Excel. Sir Henry Moore, our governor, has received instructions from home, to give his assent to the bills that may be passed and presented to him by the general assembly of this province, for the emission of paper currency, or money bills of credit.

Extract of a letter from fort Detroit, Sept. 8, 1766.

"A few days ago Pondiac, and the chiefs of the several nations here, arrived from Ofwego, where they have been in council with Sir William Johnson, and all seem very well contented with the treatment they met there. The two Poutewatamies prisoners, who were here in the guard, are set at liberty, and all their people allowed access to the fort, and the privilege of trade as usual."

Tuesday last arrived here his majesty's packet Harriot, captain Oak, with the mail, in 47 days from Falmouth.

CHARLES-TOWN, *November* 24, 1766.

TUESDAY last, about one o'clock P. M. a very uncommon Phænomenon was observed in the air, by many people here, and many other and distant parts of the province. It was first observed as a large ball of fire, projected along, with great velocity, in a direction from S. E. to N. W. and then to break or burst, when a large body of smoke and vapour was seen to be thrown up higher in the air. When it burst, it seemed to be about 50 or 55 degrees of altitude; and from the time that the explosion was seen, to the time that the report was heard, several minutes passed, some say 5, some 6, and others 7 minutes, but as no one made any accurate observations, there can be no certain time fixed on. The medium, however, of the several conjectures, as to the time between seeing the ball of fire burst, and hearing the report, makes the distance, by the common computation, at least 70 miles from Charles-Town; and yet so great was the effect of this explosion in the air, at that great distance, in shaking all the houses so severely, as to make many think it was an Earth-

Work is done with Accuracy and Dispatch

quake, particularly those who had been accustomed to the peculiar noise of earthquakes. The noise of the explosion seemed like the report of two very large great guns, at no great distance, very quickly fired one after the other.——We learn that it was heard, equally loud, 70 miles S. W. and W. of Charles-Town, and the same distance N. and every where surprized people, with the uncommon noise and violent shake of the houses; and that the cattle scattered about in the fields and woods, were observed immediately to collect themselves together in bodies.—What this extraordinary meteor was, or whence it arose; whether it broke upwards from the earth; or, whether it arose from some fortuitous and sudden congestion of igneous and inflamable materials in the atmosphere, we have not as yet, date enough to determine exactly: But shall be glad to receive further information and observations from the curious.

When the last packet boat left Pensacola, we are informed, the inhabitants began to be very sickly again.——His excellency governor Johnstone had just returned from Mobile.—The war between the Chactah and Creek Indians continued.—And a Spanish snow had arrived there, said to have £. 70,000 sterling on board (more likely 70,000 dollars) intended to be laid out in British manufactures, and several other Spanish vessels were expected; but there was so great a scarcity of European goods for the Spanish trade, as well as of merchants, that it was thought the Spaniards would be obliged to carry their money elsewhere.

By all accounts, the Cherokees have lost a great number of their people, by the general sickness that has prevailed through all the southern district of North-America for some months past.

A sloop from Barbadoes for the Bermudian settlement at St. Mary's in East-Florida, was cast away the 14th instant, about six leagues to the southward of Musqu to Inlet.

The sloop Mary, James Sheffield, master, which sailed from Savannah the 20th ult. for St. Augustine, was not arrived there the 19th instant, so that it is feared she is lost. The hon. William Grover, Esq; chief justice of East Florida, was on board.

Monday last arrived here, In the brig. Prince of Wales, from Philadelphia, Robert Raper and John Parker, Esqrs. Mr. John Neyle, and Mr. Isaac Lesesne, jun. The three first went thither for the recovery of their healths, and the last is returned married to Miss Hannah Noarth, daughter of captain George Noarth, of Philadelphia.

The prisoners in the common goal of Charles-Town, return their most hearty thanks to the gentlemen of the late grand Jury, for their charitable and seasonable present of a piece of blanketing.

CARVER'S WHARFF,

At *GOSPORT*,

The largeſt ſhips that come from Carolina can lay a-float at all times of tide, and as the wharff is now covered, rice can be ſhifted in any weather.—The poſt going to and from London, every day, makes it very convenient, and ſkins, indico, or ſuch other goods, as are often ſent by land, may be immediately conveyed by waggons to London. Any number of porters may be had in order to diſpatch buſineſs, and many other advantages attend the proprietors of ſhips and cargoes, too tedious to mention.
